STATEMENT OF THE SUBSTANCE OF THE INTERVIEW

Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313-1450

The undersigned applicant's counsel expresses appreciation for the examiner interview conducted in this case on January 6, 2010. Counsel has reviewed the Interview Summary filed by the Examiner on January 12, 2010, and it appears to be correct. The 112 rejection was discussed, and in particular the fact that the program "Chemdraw" appears to recognize the methyl in cyloalkylmethyl as a linking group and not a terminal group. Further, the examiner suggested that the next response should explain this and include examples. Such a response was filed on January 14, 2010. It is respectfully requested that this Statement of the Substance of the Interview be considered with that Response, and a Notice of Allowance is respectfully requested..

The Examiner is invited to contact the undersigned applicant's representative if it is believed that such communication would further the progress of the application.

Respectfully submitted,

Date: January 26, 2010
